

WASTEWATER SPECIALISTS

Your single source solution!

Throughout our history, we've been constructing various buildings and have spent the last two decades working in the water and wastewater industries, giving us the knowledge and experience required to serve our customers as a single-source point-of-contact from design through start-up.

CONSULTING

How well is your system running? Or maybe your looking to see if pre-treatment is a feasible option? Our team leaders can evaluate your process and advise on solutions that enhance your bottom line. After all, that's just good business!

DESIGN/ENGINEERING

With three in-house engineers to assist, L.D. Docsa leads the partnership with an engineering firm to provide a full-service turn-key project suitable to fit your specific needs. Our goal is your complete satisfaction!

CONSTRUCTION

Fast track schedule, self-performance, startup—we are the contractor with the history of making good on our promises. Performing on average of 70% of the project with our own forces gives us the edge beyond all others. Our team can take your project from the ground breaking ceremony through full start-up, and will remain by your side until your plant is fully operational.

SERVICE/MAINTENANCE

Throughout the years our staff has completed numerous service and maintenance requests for our customers. Not only are we able to correct your process waste issues, we have a full crew that can cover everything from architectural repairs to equipment replacement. Our extensive resources allow us to get your plant back on track in no time.
